

Congratulations, Prize Winners!

We are delighted to announce that our ABE Student Kishan Rathod has once again won the ABE Top Paper Award Internationally for the unit Marketing Information Systems for the December 2016 examination session.

In addition, three of our students emerged as ACCA National Prize winners by recording the highest score in Kenya for their respective papers in the ACCA (Association of Chartered Certified Accountants) examination last December.

Imaad Parkar (MA1) Murtaza Mustafa Essajee (F5) & Krutika Harshadbhai Paun (F9)

I would like to take this opportunity to extend my heartiest congratulations to our top achievers. We are very proud of them and are pleased to have helped them develop and we look forward to many more achievements in the near future. I would also like to recognize our Tanzanian student Ammar A. Fakhruddin for his efforts, dedication and outstanding performance during the December examination session.

These students and others who have achieved highest marks in class during the July-December semester from both ACCA & ABE programs will be awarded during our Annual Awards & Graduation Ceremony in September 2017.

Once again, Congratulations on your success! You have made us all proud. Keep up the good work!

Alya Al-Harazi

JIPS Website Update

We are pleased to announce that our website has been updated with new and more information regarding the college. The new website is well equipped with all the information prospect students will need when searching for the right course. It is updated regularly with information and news for current and new students. Our website address www.Jips.ac.ke

Mock Examinations and Study Tips

Mock examinations will be between 24th April and 27th April, we hope students will be prepared. Here are a few study tips for students to prepare for exams. Make time for studying. Setting aside regular time to study is critical for achieving high test performance. We recommend preparing a term calendar, weekly schedule and daily schedule that includes regular study sessions. It's so easy for work and other activities to quickly take precedence over studying, so plan your study time in advance. As you progress through the term it's okay to amend your study schedule to meet your needs, but make sure you plan study sessions in advance – and that you stick with them.

When studying create mental associations of your course material. The ability to make connections is not only an easier way to remember information, but it's the fuel of creativity and intelligence. Steve Jobs famously said "Creativity is just connecting things. When you ask creative people how they did something, they feel a little guilty because they didn't really do it, they just saw something".

Above all stay positive. It's amazing how a positive attitude can impact on your exam results or motivate you to complete that assignment when all you want to do is to quit.

Business Communication Training

In February, we conducted training at Burhani Finishing College. The 16 hour Business Communication course was done in three consecutive Saturdays by our trainer Mr. Evan Onditi. The course is set to nurture the development of skills such as written communication, online communication using e-mails, planning effective presentations, audience engagement, oral communication, conflict management etc.

The business communication program is one of the Professional development Training programs offered at JIPS. Our core value for the program is to create a team that will lead your business to a successful growth and create better understanding between them and your clients. Our training modules can be combined and tailored to suit each department in your company. We believe that people are a company's greatest asset, making training a key driver to both individual & company success.

Inspirational Hub Event

The Mombasa Tech Community Inspirational Hub-Grow Yourself Event was held on Saturday 11th March at Jaffery Institute of Professional Studies.

The half day training event meant to equip the attendants with a sharp short fundamentals skills on entrepreneurship and ethics. Speakers introduced entrepreneurship, an activity to showcase teamwork, inspirational talk by Charles Msilanga, and a panel discussion on success of start-ups.

The purpose of the event was to create awareness and promote not only entrepreneurship, but also techpreneurship, innovation and leadership throughout the community. The day brought community members to unleash their passion and discover where they belong in the modern world including various opportunities while they connect them to the right professionals.

Base Titanium Limited Training

Base Titanium Limited recently completed our Professional Development Training program for their staff. The training was conducting at their premises in Business English. Our Trainer Mr. Evans Onditi handed certificates on 25th March 27, 2017 at their training Center.

Life after College Talk

Andrew Amayo, an experienced Academic, Researcher, Consultant, Board Member, and Employability coach gave a talk on Life after college at JIPS on Thursday 30th March. The session was interactive and an open discussion on what to expect after college, lessons on individual growth and how to make the best out of teams. The students had a chance to work on a puzzle to learn on team work and how to work effectively as team in the future.
